Updating Loadmaster on a Network Drive

Double-click on the LoadMaster.EXE

Follow the same screens as you did when installing for the first time but make sure you do the following steps as well:

	Loadmaster - Setup wizard		
	Welcome to the setup wizard of Loadmaster This program will install Loadmaster on your computer. We recommend that you close all the curent applications before running the setup program. The application will be installed in directory:		If you store your data on a network drive then you should click the Advanced button during installation.
	C:\Program Files\Loadmaster\	/	This simply asks you to choose the directory that contains the data files to be updated.
Powered by WINDEV	The "Advanced" buttons allows you to access the advanced options of the automatic modification of the files. Advanced Version: 18.8 < Previous Next >		MAKE SURE EVERYONE IS OUT OF THE SYSTEM BEFORE DOING THIS.
	Advanced options for automatic data modification		
	Select the options that will be applied during the automatic modification of the application data files:		
	Create a report file for the operations performed by the automatic data modification		
	This file is used to get information on operations performed by the automatic modification. If a problem of this file can be sent to the application manager.	ccurs,	
	Location: C:\Program Files\Loadmaster\LOGMODAUTO.TXT
