

## Loadmaster Help Sheet - TPN Unique Override Pricing

You can charge customers in a variety of ways but to retain a TPN style of charging use the TPN Unique Pricing Override. This is found on Setup/Networks/TPN/TPN Pricing/ TPN Unique Override.

This works in EXACTLY the same manner as the normal TPN Pricing Override but only comes into effect if the customer/service/pallet type match.

Choose the Account then the Service then fill the screen out as required.
